## **SCORS Carton Barcode Requirements**

*Required for shipments to Fred Meyer Chehalis, WA DC only*

SCORS is a “one-touch”, automated scan receiving system used at the Fred Meyer Chehalis, WA DC. All “store-ready” cartons should be marked with SCORS scannable barcodes for automated processing.

### **Minimum conveyable carton size:**

- 6” wide x 9” long x 3” high
- 2 pounds

### **Maximum conveyable carton size:**

- 27” wide x 47” long x 30” high
- 75 pounds

### **Packing options:**

- Full-case, (shipping carton contains no “inners”)
- Master-pack, (shipping carton contains “inners”)
  - \* Poly-bagged inners must be placed in cardboard cartons

### **Barcode Number Options:**

- 12 digit product upc number, (consumer upc number)
- 8 digit Fred Meyer sku number with 4 leading zeroes, (ie: 000012345678)

### **Barcode label placement:**

- Barcode label applied to the top or one long side of each carton
- When shipping in master-cartons, apply the barcode label to inner boxes only, not to the master carton.
- Shipping cartons for master-packed orders should be labeled, SCORS MASTER, when inner cartons are labeled with SCORS barcodes.

**PLEASE NOTE:**

If your cartons weigh more than 75 pounds or less than 2 pounds,  
carton barcode labels are NOT required.

# **FRED MEYER VENDORS:**

*We have recently had several questions regarding the requested information for the carton labels.*

*Please read the below to answer any questions that you might have.*

**1) Where do I Find the correct PO # to use?**

*Please use the Fred Meyer or Kroger PO number*

**2) SKU? Off of one product or multiple products on the order?**

*SCORS carton labels may use either the product upc number or the sku number with 4 leading zeroes for the item inside the box (for "SET-SKUS" (mixed items in one case), please use the set-sku number or the "case" upc, (not the individual component upcs)*

**3) Invoice #? Where is this found?**

*Invoice number is rarely available in advance of the shipment. It is not a mandatory field for your labels.*

**4) Product Descriptor? What would you like for this to be?**

*This should be the product/sku description from the PO*

**5) Style ? Is this just 1 style # for a product in the box?**

*Style number is the item or stock number that identifies the item inside the box. (If the carton contains a "set-sku" with multiple items, the stock number for that assortment is what should be used.*

**6) Color? Is this just 1 style # for a product in the box?**

*This is the color for the item inside the box, (ie: red and black, or silver). This is used to differentiate a stock or style number that may come in more than one color.*

**7) Qty- Is this the total quantity for this box or master carton, or # of boxes in main/master box?**

*This is the quantity inside the carton, (ie: 6 pieces, or 12 pieces). If this a SCORS barcode label, the it would never be a master-pack. Master packs should not have a barcode. The barcodes are to be applied to the inner cartons only. The master carton should just be labeled SCORS MASTER.*
